

Africa Safari Serengeti Ikoma

Relaxing in African style

Africa Safari Serengeti Ikoma is a comfortable safari accommodation located within the Serengeti Ecosystem and only 300 metres from the National Park boundary, but within the Game Controlled Area of the Tanzanian Wildlife Authority (TAWA).

Located between Serengeti Seronera, Grumeti and Ikorongo Game Reserves the location is perfect for exploring the Serengeti and all that there is to do in one of the country's largest National Parks. Due to its proximity to the Grumeti River, Africa Safari Serengeti Ikoma has a backyard full of animals and the Great Migration is here several months of the year.

The property is spacious and has accommodation to suit every budget; ranging from a campsite to pre-erected safari tents to Comfort Rooms. These canvas rooms with permanent bathrooms offer stunning views of the Serengeti from your bed and balcony. Meanwhile, the Ikoma Game Controlled Area has also proven to be a hidden treasure when it comes to wildlife. The area is home to migrating animals from Serengeti National Park and the Maasai Mara Game Reserve in Kenya.

Together with a TAWA ranger, night game drives and bushwalks can also be made in this area.

Open all year round - 365 days - 24/7

SERENGETI NATIONAL PARK

With vast open plains and an abundance of wildlife as far as the eye can see, the Serengeti is a safari maker's dreamland. Because the park is so vast, it is advisable to spend several days exploring. Serengeti National Park stretches over 14,763 square kilometres and is easily the largest and perhaps the most popular of the Northern Circuit's National Parks. Serengeti is host to the Great Wildebeest Migration, when some six million hooves walk across the open plains, as more than 200,000 zebras and 300,000 Thomson's gazelles accompany the wildebeest on their journey to fresh grass. Serengeti's Seronera area is located in the south-central region of the park and is known for a large number of big cats; the lion, leopard and cheetah are often spotted here. But also the elephant, giraffe, hippo, crocodile, buffalo and impala are also well-known inhabitants. The area is very popular because it is one of the most likely places to see a hunt. The landscape is dotted with "kopjes", rocky granite or Gneiss protrusions, more than 550 million years old and highly loved by some cats as lookouts during the hunt.

Activities

BUSHWALK + SUNDOWNER IN IKONA GAME CONTROLLED AREA

-
This migration corridor is a buffer zone/wildlife management area within short driving distance of the accommodation. The Grumeti River flows right through it. A guide and an armed ranger will accompany you on this 2 kilometer walk. It is the perfect opportunity to look for the little things, identify and track footprints, examine the droppings of different animals, find interesting insects, observe the abundance of birds, talk about plants and consider the ecosystem. The bushwalk ends on top of a hill for sundowners while you enjoy the sunset over the endless plains.

1

NIGHT GAME DRIVE

-
Maybe take an afternoon snooze as when darkness has fallen, you can join in on a thrilling adventure; a night game drive. A spotlight is fitted to the vehicle and before you know it you catch the first reflections of the animals' eyes. The night is another world altogether out there; interesting action of the nocturnal animals, different shades and shadows and unknown sounds. Typical animals of the night are bushbabies, civets and genet cats, a rare Aardvark or porcupine and others.

2

SERENGETI HOT AIR BALLOON FLIGHT

-
This popular excursion is a once-in-a lifetime experience! You will be picked up at Africa Safari Serengeti Ikoma (early!) and taken to the launch site for a sunrise take-off. After a beautiful flight of approximately 1 hour, you will be toasted with champagne upon landing and then served a 'full English' breakfast under a tree before being taken back to your safari guide at a pre-arranged location. Only possible in combination with a game drive and park fee.

3

SERENGETI NP GAME DRIVE

-
The possibilities are endless due to the ideal location of your accommodation. Your driver will have gathered information about which direction is best for the day, depending on animal movements and the time of year. The Western Corridor can be visited, the Seronera area can be explored and of course the northern part of the park also offers exciting options.

Safari Jeep

Four-wheel drive safari jeep with a pop-up roof for hire on request, including driver and fuel. Your driver guide is very knowledgeable and will make sure to give you as much time as you need to ask questions, take pictures and enjoy the incredible landscape.

DEVELOPMENTS

In recent years, much has happened in the area in terms of nature conservation. The importance of the buffer zone with the western part of the Serengeti and the protection of the migration route has been recognised, which is why some of the Game Controlled Areas have been declared Game Reserves. The area not only generates income for the government, but also makes a valuable contribution to community development and the prevention of poaching.
